Bentley HX50

High performance satellite system

Bentley HX50

Hughes HX50 is manufactured by the trusted world leader in satellite networking, Hughes, who has shipped more than 700,000 modems worldwide. The Bentley HX50 incorporates the most up to date satellite broadband technology ensuring a fast efficient connection at the best price available.

The Bentley HX50 is the ideal platform to enable high-performance IP connectivity for a variety of applications including Soho/Corporate networks, cellular backhaul, MPLS extension services, virtual leased-line services, and other high-bandwidth solutions.

- Closed loop control between hub and remote
- Dynamic outbound coding and modulation changes based on received signal
- Dynamic inbound coding changes based on receive signal
- Dynamic remote iplink power control

Bentley Turbo Software

The Turbo software is a value added service provided exclusively to Bentley Walker customers at no additional charge.

The benefits are an immediate increase in data throughput speeds upto 5 times the existing performance and each new subscriber will impact positively on the overall network performance.

Remember this is only available on the Bentley Walker networks.

Coverage

We currently offer our HX50 services on the following satellites:

W3A Middle East

W3A Africa

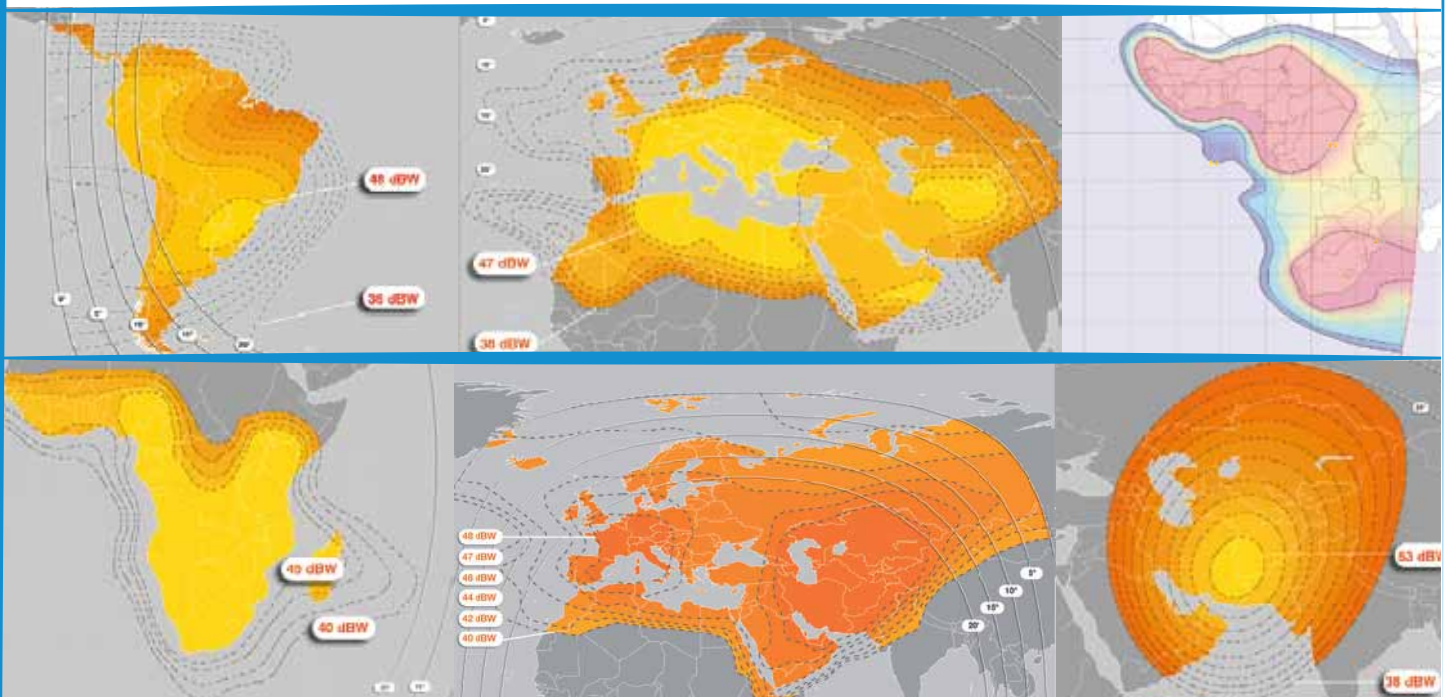

W6

W7

AB 1

Sesat 2

T11

Please contact sales@bentleywalker.com to discuss pricing and availability of dedicated/CBR circuits

¹The Grade of Service (GOS) is a fully transparent document that outlines all the typical speeds you can expect to receive from our main shared packages. Unlike other companies we do not have set contention ratios for these plans so there you know exactly what speeds you can expect to receive. The way we deliver these guarantees is by operating our Fair Access Policy (FAP)

²For those who desire a completely FAP free service we offer these on our fixed 10:1 contended subscription

*Maximum headline rate. Typical speeds may vary, please consult HX grade of service document for details. ** Subscription to be paid in advance in 3-month blocks (includes one month deposit refunded as 12th month of subscription in this years commitment to service); renewal to take place after 2nd month of service. †Special offer based on 3 months' pre-paid subscription, subject to availability and stock, FOB UK. Price includes 1.2m dish, HX modem, azel mount, (pole not included), arms, head unit and 25m coaxial twin shot cable (connectors fitted). Bentley Walker terms and conditions apply.
